

REMARKS/ARGUMENTS

Submitted herewith is a request for docket number change for the subjected patent application. Applicant respectfully requests the attorney docket number be changed to read "MESH008."

The specification has been amended herein to update the status of referenced patents and patent applications; and also to correct typographical errors in the originally submitted patent application specification. No new matter has been added with these specification amendments.

In response to the Examiner's rejection under obvious type double patenting, a terminal disclaimer, in compliance with 37 CFR § 1.321(b), is filed of even date herewith to overcome the obvious-type double patenting rejection. Since the above mentioned application and copending U.S. application publication 2002/0150075 are commonly owned by the same assignee of the application, it is believed that the terminal disclaimer overcomes the obviousness-type double patenting rejection of Claims 51-56 as being unpatentable over claim 41 of U.S. application publication 2002/0150075 in view of U.S. patent 6,856,807.

Inasmuch as this amendment distinguishes all of the applicants' claims over the prior art references, passing of this case is now believed to be in order. A Notice of Allowance is earnestly solicited.

No amendment made was related to the statutory requirements of patentability unless expressly stated herein. No amendment made was for the purpose of narrowing the scope of any claim, unless Applicant has argued herein that such amendment was made to distinguish over a particular reference or combination of references.

In the event that the Examiner deems the present application non-allowable, it is requested that the Examiner telephone the Applicant's attorney or agent at the number indicated

below so that the prosecution of the present case may be advanced by the clarification of any continuing rejection.

The Commissioner is hereby authorized to charge Deposit Account 502117, Motorola, Inc, with any fees which may be required in the prosecution of this application.

Respectfully submitted,

October 20, 2006
